## End User Pricing

TrueGUI is an advanced software development tool designed to allow you to update your legacy application software screen appearance to a full Windows XP<sup>®</sup> look, one application screen at a time. TrueGUI works with any programming language, on any operating system, and requires much less programming effort than competing solutions. Download the software today from [www.truegui.com](http://www.truegui.com) and try it free for 30 days. Full documentation is provided in the download.

The AM-82 TrueClient<sup>™</sup> Terminal is a Windows XP Embedded<sup>®</sup> based Thin Client which contains our TrueGUI software, plus AlphaLAN<sup>®</sup> and Ericom<sup>®</sup> Terminal Emulation software. We can customize the TrueClient's firmware to include additional Windows applications that you may require.

Technical Support, including Consulting and Programming Labor to help you implement TrueGUI, is available on a time-and-materials basis. Alpha Micro staff is available to conduct training, either at your office or at Alpha Micro's facility, to meet your needs. **Rollout Special: Free Telephone Support through November 30, 2005**

TrueGUI is locked to a unique hardware signature of a particular PC running Windows XP. To permanently activate TrueGUI, you must e-mail us the ID Code generated by the TrueGUI Configuration Screen. In return, we will issue you a Product Activation Code for each desktop PC utilizing TrueGUI.

To order, e-mail us at [truegui-authorization@alphamicro.com](mailto:truegui-authorization@alphamicro.com), call (800) 289-2574 (8:00AM to 5:00PM Pacific time, Monday-Friday) or fax a corporate Purchase Order to (949) 250-5870. Please dial (949) 250-4180 from outside North America. Net terms may be granted upon credit approval. MasterCard, Visa, and American Express are accepted.
